

## **Action For Real Change – Action-Step List Of The NITA Movement By Cory Edmund Endrulat UNITÆ – NITA – Nature Is The Answer – NITA.ONE (Action-Sheet)**

*It is one to speak the universal truths, another to speak of the solution to such universal truths, and this can be a bit of a weight to understand, especially due to it's unique existence in any world of deception and ignorance, scam artists and egos, counterintelligence and counter-opposition.*

### **Representation Of NITA Is REQUIRED For Maximum & Sustainable Change WITH Each Of ALL Of The Following Action-Steps (Ex. Flag – nita.one/share):**

#### **Questions To Ask Upon Need Of Action:**

When it comes to alternative, if you had to choose an alternative to the one elitist agenda of pushing for a one world government or control through way of the methodology of divide and conquer and other schemes, what would it be? Perhaps it would be a form of decentralized government and self-control as opposed to government & mass control, whereas there is unity and guidance as opposed to divide and conquer. As for what it stands, most of the “freedom lovers” do not have a firm standing with even simply one another when it comes to providing an alternative to the agenda itself, not simply the information. If most of humanity can simply agree upon freedom and simple truths and needs, why isn't this used as a firm unifying ground? Do we always need to be “right”? Do people often complain about how people must get together or how there must be change, however forgetting that they can actively be the change and that they can do so now within their own lives? Do we put the effort and care into something greater than ourselves, that our ancestors would be proud of, being that they live within us and brought you to where you are now? If we are all innately unique, can we all unite around simply such ideas? Instead of using others for our own ego and power or staying within our own echo-chambers, can we bring others up with us and toward the truth? Do we fix our act, by crowding out the bad by adding and utilizing in the good? Do we fix the system from the inside-out, alike healing the body from disease? Is disease or the rise of corrupt politicians our own fault entirely? Is truth, authority itself? Or is authority acting as truth? Can we save humanity through awareness, before we experience harm (prevention)? Is there a grounding foundation we may all come together upon, that is universal, eternal, innate, practical, natural, generational and least-invasive? Is our simple needs being compromised, such as food, water, love, family, tradition, ancestry, morality and freedom? What would happen if you did not tell the truth that nobody else saw? Do all people's messages deserve to be shared and with reason (which all things are also created with a reason of their own)? Is all aspects and levels of life being compromised in someway? Are we questioning what would have previously never been questioned (ex. gender)? Are there distractions and focuses on the symptoms of the problems, with collectivist mindsets telling people ‘what to think’ instead of ‘how to think’? If any “alternative” arises like there has been (multiple different video sites, medicines and platforms), what happens when there exists many, and how does it relate to unity and direction? If there exists one mainstream narrative and agenda among all the different alternatives, will they still continue to control and steamroll ahead? Is there rooted control of the mind (therefore disconnecting the heart), with the belief system and dependence focused on left and right brain imbalance among other imbalances? Can “movements” be turned into contributing fooling-factors to the one elitist agenda? Given making awareness online, can there become action and awareness in real life? If technology is seen as a potential future threat and censorship is growing, is it being primarily used and focused upon within freedom lover's content which ironically criticizes technology and is censored from such? If the internet is a tool to help us in real life, wouldn't more focus on change & rooted placement in-real life, help us never be utmost defeated from censorship while getting out to more people who perhaps need the information the most? It may then get out to those who don't use the internet, who are perhaps older with wisdom, for information that should be passed from generation to generation. If technology is becoming much alike real life in becoming our life, will we know the difference? If you want to make a difference, are you making the difference between the one elitist agenda and the contrary, or the real life versus the illusion? Perhaps it is the most impacting “things” which aren't “things” that can be the hardest to understand? Is there a dominion of science and wanting to make life convenient or otherwise easy, yet at the same time making life harder and forgetting what is of nature or natural to life? Do we understand if any and all government is innately immoral due to the occult natural law and how we would apply such laws to our day to day life (as well as in circulation from generation to generation)? While most of all things may be at question, do we question the nature of life itself and what nature intends, itself? Do we lose control over ourselves and give it away or seek to control everything that happens in life? Do we become the very things we create and to what level is it a projection or reflection? If all individuals realized their self born-given power, does the power system that be cease to exist and does nature work with you instead of against you? However, then there's question as to what can be the contrary to the elitist agenda, what can make the most impact, what can be the most unifying and for any one “movement” or “agenda.” You may know that the truth does not exist with any one ideology or one banner, and that none should claim to be. However, what if we were to speak upon such very fact of the matter and on behalf of us? What is the unifying one counter-agenda to the elitist agenda that be? How can it unite not just freedom lovers, but all of humanity as a whole? How can anyone agree upon one simple premises? Are people able to come together? What happens when we do come together? There are many questions that may come to mind when we really start thinking about the direction humanity may go, shall freedom lovers believe it's righteous for individuals to have more freedom. However getting to that state of “more freedom” has many different prerequisites and conditions. Do you realize the potential? What are you doing to contribute to the change and what could you be doing? How do we know that what we are doing, is right for the direction of the entire world? Does having direction and something to aspire to within our personal lives that helps us feel more connected to the greater duty, contribute to our health and happiness or destiny and passion? If humanity generally knows what has to be done, why don't we focus on bringing people together around those reasoned action-oriented ideas? Nature Is The Answer. Can we appeal to help individuals learn & have an open mind? It is up to you! **(More Detail On [nita.one/advancedperspective](http://nita.one/advancedperspective))**

**Conclusions Of Action Upon “Nature Is The Answer”, The Movement Of YOUR Action:  
(From nita.one/advancedperspective)**

The reason why the foundation of NITA relies on "lessening government demands and implications" is due to the fact, through all the generations, there shall never cease to exist the lessening of such illusion; it shall be lessened to zero existence, and continued to be kept at such level. "Government demands" also relate to that of people demanding government, which is to ultimately be lessened for the lessening of government implications. To demand is to question, so you are assuming that government is the answer, by demanding such. In reality, we should embrace and question for that of nature is the answer. The implications are the embrace, the entanglement, the results; human beings shall not embrace, entangle or result themselves with an unnatural source or firmament or foundation. You may think of all government terms, in terms of statism influence; a nation becomes an empire due to more-government, more mind-control as statism.

Leadership Does Not Need To Be In Ego — Seek To Guide. We CAN Handle The Truth — Simply Open Your Eyes, Create Greater Understandings Where You Must & Start Living It. Simply "Sharing" NITA Isn't Enough, You Must Represent Your Presence & Truth To Such Presence Of Representation, Hence The Demonstration (Courage & Conversation; Multiplicative Acts). It Takes Little Courage To Have A Movement, Far More To Speak On Behalf Of It. I Care Not For Links To My Own Works, I Care For What Works YOU Do. It Is Necessary To Connect Your Works & Mention NITA Among It & Have It's Materials In Coexistence With Your Other Materials For Optimal Unity Around Presence; We Need Everything In Our Power To Get The Word About. While Morality Is At The Heart Of Natural Law, Integration (For Manifestation) Lives At The Heart Of Natural Law Expression. In Nature, Nothing Exists Forever Except That Of Which Is (Truth); Therefore We Shall Integrate & Live For/In/With Such & For The Generational Life Of NITA. Despite How Much It Matters To Talk About Our Livings Among "Government", Individuals Are Afraid & Rather Speak Upon & In Detail About Other Subjects That Don't Nearly Matter (Just Look At The Detailed-Passions Of Dungeons & Dragons); this is called learning about time management, prioritization and underestimation leading to mass casualty.

You Do Not Have To Copy & Paste Material, And You Likely Shouldn't For Optimal Individual Appeal; Copy & Paste Material Often Portrays A Lack of Creative Effort, However I Encourage Such For Widespread Causes Such As NITA & Universal Truths Such As Natural Law; What Matters Is That You Yourself Is Creating & Living Your Own Heart & Passions & Adding That Personal Touch No Matter What You Choose To Do.

Fear To Speak Up, Fear To Speak The Truth IS Often The Very Problem Of ALL (Suppression Of Human Nature Multiplicative & Positive Acts), Aside From Statism; For If We All Lived Truthful, Open & Honest Lives, Statism Naturally Also Ceases To Exist. It Is Not That NITA Is Superior To Other Movements, It Simply Abides To Natural Law & Approaches "Movement" Naturally Different, Proposing A Message As Mission That Is Perhaps MOST Unifying, While Considering ALL Generational Conditions. It Would Not Be Created Out Of Moral Obligation If Such Movement Already Existed In Manifestation; I Would Not Then Create Such This. Freeing The World Should Actually Be Everyone's Ultimate Goal Due To Love's Association With Such & The Fact That Most Individuals Are Working, Where Their Job Becomes Their Life; They Are Working Hard While Those Above At The Very Top Continue To Manipulate Any Of Their "Simpleton"-Types.

The Flag Is Meant To Be Seen, Meant To Create Conversation & Question; It Should Be In Public Eye For All Our Doings During Especially Stage 1 Of The 6-Step Speculation In NITA, From The Back Of Your Videos, To Titles, To Memes, To On Your Lawn Etc. At least take the strategies presented otherwise of representation, even if you don't represent NITA; NITA Is simply here for the REQUIREMENT of unity for change, therefore it helps for any to all to represent if we truly want change but it is ultimately your choice & shall receive no shame for choosing not to, but nor appraisal,

you may miss the opportunity of meeting like-minded individuals or new information that can help your personal efforts. Politics Plays On Irony (Paradox) In Seeking Division BY IT'S VERY NATURE; Understand and point out the paradoxes, and it may help in your appeal. As of this presentation, you may see and speak of anarchy as nature.

"If you're not afraid, then you haven't been paying attention."

If You Are Paying Attention, Don't Be Afraid Despite What You See & Take Action To Release Any Fear Through Love In Bringing Attention To The Necessary.

We should not underestimate Nature Or Anything Within Nature. We Should Also Not Underestimate Our Ancients & Ancient Civilization "Myths" That Have Been Described With Great Detail In The Past (Eden-Meru, Atlantis etc.); These Also Hint To Unknown Or Unexplored Land.

Freedom allows exploration & discovery, there's much we don't ACTUALLY know. All can be lost so easily, this work can be of the same unless it's made widespread. Many have worked in the past, I will keep producing content, for I care not for how much publicity despite the importance; let passion and heart guide you. Many have worked on past projects with insane precision of little to no benefit for the world, but it does for some, and that's all that matters; despite this, I will still think big to help set the stage. We can uncover so much hidden information and knowledge when the public takes control and all opens up; there no longer exists an occult, and therefore then no power differential naturally, it is freedom through knowledge. You don't have to follow this presentation for what it says (and misinterpretations are for the most part natural, especially away from my intentions), for NITA is self-explanatory in it's nature of definition & "foundation" as share-sheet (such also stands for reason as to it not having to do with me); this is meant to be another fellow guide in directed-action & fuller-understanding, where some who know more of this may be able to guide more proficiently. As long as these ideas get out there, the conversation can be made, universal truths shared, minds awoken, hearts opened, guts followed. Natural Law Is Meant For The Mass Public; universal tools for the universe.

For mentioning any-one topic, I may be called names I never have deemed upon myself, however I'm never alone & nor are you; we cannot fear, especially when others expect it of us. Claims could also be made of the symbol, so be it I understand the skepticism, however all symbols can be tied to some ancient sketchy practice & it's what's behind the symbol that matters; NITA is supposed to represent all things natural and in a unique neutral-positive way, simply.

You Don't Have To Worry About People "Misusing" NITA, Because We Are Teaching All Individuals To Ultimately Lead Themselves & Seek Out Universal Truth & Messages; The Share-Sheet Is The Foundation. Misrepresentations Shall Be Naturally Called Out, Conversation Is Necessary Anyways, However All Parties Should Seek Understanding & Non-Argument For They May BE The Change; Natural Law Is Of The Focus For Clarification As The Ultimate Decider For Right & Wrong Action. Learn To Present Upon Representation (NITA), Create Meaning Upon Definition (Natural Law). Man's Law Includes All Problems That Come With Government & International Influence. I Shouldn't Have To Convince Anyone In The Unorganized "Truth Movement" That We Need Change & That We Ourselves Can Be The Change & That All We Need Is Conversation & Escaping Echo-Chambers & No Titles; However Sadly, I Often Do & Must Convince For The Need Of Integration Through Unity For Disintegration For The World We Desire, That Is The Natural World; Even Asking For Representation can be too much for some, although it would greatly help in spreading the word and getting the conversation even started, let alone in motion. I Also Shouldn't Have To Tell Them That We Should Be Desperate For Change & Should Be Doing Our ALL by ALL means. I Don't Have To Convince You For Love & Expression; We Can Want Peace, But Look Who Isn't; We Let Them Permit. Those who do not like NITA are entitled to their opinion fully, but we all likely have the same end-goals, and that's where unity should strike. However the small group of individuals who seek to denature this world, not wanting peace and constantly wanting war, this shall not be permissible. If It's

Us All Who Want Peace & We Are Able To Say "No", Then They Cannot Use Anyone For War & Ego & Power. Change What You Can Within Your Own Life & Always Seek To Do More As Of Now.

Nature Is Inescapable, We Are All Connected To It. I Wish Not To Say It Is The Answer, But It IS & Especially Of Need In Recognition For The Current Day, hence it's relevance. You See It Everywhere, Music, Poetry, Love, All Creation as detailed. In The Case Of A Continuing One Agenda To-Counter, Where Technology Dominates, NITA Becomes Even More Direct As The Literal Natural Way-For-Change. We Can Speculate All Day About How The World Would Be "If", However The Direction Is Clear and therefore there is no reason not to start taking action. Some Individuals Have Proposed To Me Some Very Complex Plans For Unity & Moving Toward A Desired World, However They Lack The Basic Movement Structure & Do Not Often Take Into Account All The Many Factors Taken Into Account Through The Course Of This Presentation & The Multiple Documentaries; I Wish Them Luck, We Shall Still Be Of One Another & Still Have All Our Ideas Within To Our Own Efforts, No Reason Not To. If you truly understand natural law, you realize there's thousands of ways to share it. The loads of work here is to make my intentions clear for future generations. Understanding For Unity, Unity For Change.

The "Truth" Or "Freedom" Unorganized "Movement" Does Not Understand NOR Encourage THIS. We MUST Be SICK Of People NOT Taking ACTION; Not Acting Upon The Simple HOWS Based On The Simple WHYS. You Must Take The Sacrifice, There Is No Need To EVER Stress... **JUST ACT** This IS OUR ONLY BLUEPRINT TO SAVE THE WORLD, (Let Alone Natural Blueprint) Will You Use It? We Need ALL Peoples.

We Do Not Need Single Leaders, Such Will FAIL; Supporting ME Will FAIL. We MUST Be Guides, Improvisers, Creators Etc. For NATURE You Cannot Depend On Me Or Others For The Material Of NITA, CREATE For Yourself (Also Gives Greater Investment & Care For Yourself) It's The Simple Things, Like People Dancing, Making Music, Living Passion, Writing, Growing Food Etc. That Is Of Need In Restoration.

Have The NITA Materials, It Does Not Take Too Much Extra Time Out Of Your Day Again, Instead Of Stressing (Which Is Often Of Fear)... **JUST ACT** Hand Out The Cards With A Quick Message To Individuals In-Person Anywhere Or At Stores And Leave Custom/Template-Modified Comments On Videos That You Watch, And MANY MORE Simple Action-Steps Add Simple Complimentary Steps To Your Everyday Life; Adding In To Crowd Out, Make It Personable (As Nature Also Resembles Personality)

Never Once Must I Identify As An "Anarchist" (May Defer Or Deter Appeal), Nature IS The Anarchy; I Am Simply Human Of No Title.

Teachers (Myself) Of Teachers (Mark Passio For Example), Guides (You) Of Guides (Law). An Understanding Of The World Requires No Videos To Be Watched Or Articles To Be Read These Are A Waste Of My Time Now, As I Can Predict What Happens In Almost Each & Every; They OFTEN Give No Value To Nature Nature As A Whole Is Intelligent, Even Evil Is Here For A Reason — So Let Us Learn & Listen, To The Call To ACTION We Shouldn't Make A Big Deal Of Nature, But Undoubtedly It's The Answer. Nature Relies On Simplicity. This Presentation & Info Within SHOULD Be Simplified. Some Things You Can Do Among This Generational Model Is To Obtain Natural Storable food for generations & translate all material.

NITA is a worldwide mission due to the fact there exists nations with armies, and there exists the need for ALL of humankind to be freed for the most peace and voluntary coexistence with natural law, positive and multiplicative acts. It must be known that with some extra help of NITA, collective action of defense against foreign nations can still perfectly exist, as we may gather upon different time's need regardless of the condition. Upon the appeal of individuals and aspiring others to take action within their own lives, it is suggested that guides inspire with high energy, where some may devote their life to the cause and mission. Nothing here is to claim at all, that we "know it all", NITA and Natural Law are simply here to help navigate. It is not "this way or the highway", the ideas and matter

that comes of NITA, matters more than NITA itself; such stands reason for unity between different causes through however, the human cause, the cause for nature. From what we learned in this presentation, we must be brave, fearless, loving and open. We must actively plug and promote NITA for it's existence and prevalence, for then also Natural Law's existence and prevalence. This presentation may also be titled "Natural Law Revisited, with Nature Is The Answer." As opposed to much of the independent media "truth community", I want to hear not what videos you've watched, I want to hear how you are taking action and what actions you plan to do, how big are you looking at your life and potential, what talents do you have that can help the world see knowledge through different perspectives, what individuals do you know to help you gain influence in spreading the message, what groups have you gone to in trying to seek consensus, build bridges and connect dots, filling void and providing others with universal direction, what professional affiliations have you been reaching out to in order to create more validity for the movement and your presence.

If anyone seeks to startup any small guiding groups of NITA around the world anywhere at anytime, I will provide material for those startups, in hoping to spread the message as mission movement worldwide and in different areas. NITA and the necessary action for the optimum condition is equivalent to moving a large boulder rock, it REQUIRES movement and force with such, therefore many numbers, and such movement of the boulder IS movement, therefore evidence of presence and action (demonstration of representation). There then comes the question; if you aren't taking action, are you really for the truth? Step 6 is often when The Tao comes into place and effect. The truth is, the "truth movement" may never actually make it (that is, to their desired change), without an actual founded and structured movement such as through the principles of NITA, especially to get the ideas of natural law and true anarchy (as nature) about; although the truth shines through time and comes into effect time and time again for show, there's no exact universal direction for which can prevent reckless unsustainable cycles. Closest to the root of the nature of the big problem affecting nature: Globalism Or International Influence? No. Statism & Denaturing? Yes. It must be understood that those who concern themselves with the truth, or even are actively truthful, are considered "crazy"-like by the media (of any type, due to growing control). The life-saving understandings to be shared, such as that of natural law and NITA, should be of moral obligation, being that harm is prevented and you care for life. It suggested that just because Nature Is The Answer, does not in anyway mean anyone should "praise" nature, this does not help the cause; there also are no particular victims. I encourage debate and conversation, however the reason why I would not debate with others who generally already have a grasp on things, is because we've long talked with little action in this so called "truth movement"; I am personally past the stage of debate and absorbing, as I wish not to alienate myself more and put time into echo-chambers; none of us have to agree with each other on everything, we simply want to be free.

The truth of the matter is often that no revolution will ever truly happen because nobody will ever truly organize, unless it's controlled opposition, or it's in the case of NITA. It is important to maintain calm in the storm, it is a practice of inner-peace for external peace. In the case of dealing with angry unconsciousness, be able to defend yourself and always seek amends; it is important to torture with tenderness and kill with kindness, and when the right moments are, simply be silent as unconscious individuals will expose themselves, better not to feed any fire otherwise; planting seeds must be noninvasive and complimentary, not contradictory, mistakes are OK but we all learn for the better of next time; among this, it is important to have some sort of spiritual practice of your own, whatever it may be as crucial in integrative health. You may be able to define that of which is divisive, if for example, other movements are with or concerning man's law. It shall be that awareness comes before experience, for prevention rather than simply treatment and for the best of both as in accordance. It is in the nature of firearms, that such is the modern-day sword of truth, as also symbolic in the iconic sword standing for truth. Collaboration best be done between groups of individuals if directed to those in the dark or for support in action, for which accountability is essential in conscious-direction.

The Kingdom Of Freedom IS Nature, For Freedom Cannot Be Found, Optimal & Sustained In Any Kingdom Except Where Freedom Is Itself: Nature.

If NITA Does Not Continue In It's Efforts & Humanity Does Not Uphold Their Human Nature, It Will Just Be A Matter Of Time Till Further Enslavement, As Been Growing And In It's Potential (Structures In Place).

Do not be the controlled opposition, stick to law and principle; focus on freedom of ALL. Make it "second nature" to do so, as human nature is to learn from such laws & principles.

Quality (Guides; Nutrient; Natural Law) + Quantity (People; Calorie; NITA)  
= Moving Toward Freedom

**If You Understand NITA, You Will Refer NITA As "Nature Is The Answer" To Further Emphasize The Simple-Clear "As Is" Message As Mission.**

The Flag Stands For Itself, As We Stand For Ourselves & Help Clarify Any Materials Of NITA Utilizing Human Nature, For Nature. Protests Aren't Recommended, Increasing Presence Otherwise IS Recommended. This Is Due To Keeping Peaceful & "Be The Change" Ideas In The Modern Age. Not To Be Associated With Other Movements Or Any Ideology. Individuals May Make Assumptions Of This, But NITA Will Never Associate For Sake Of Simplicity.

Many Individuals Involved In The Media Business May Want To Be "Unbiased", However Such Is To Suppress Human Nature Free Thought & Speech All In The Media Are Encouraged To Have A Voice Of Their Own, Not To Be So Neutral In The Face Of Such Important Living-Times

We Live In A World Of Too Many Answers & Not Enough Questions, Yet Those Answers Are Often Unnatural & Propagated, And There Are Many Questions We CAN Ask; This Is Likely Due To The Suppression Of Many Questions (Divisive & Negative Expression) That Are Otherwise Found & Expressed When **Nature IS The Answer**

**Action-Sheet Made By Cory Edmund Endrulat, A Fellow Messenger Of NITA.ONE**
